The amendment filed March 11, 2004 has been entered.

- 2. Applicant's response to the inquiry regarding their dating of Eigen et al was satisfactory but in any event moot in view of the certified translation of the priority document filed June 17, 2004 which was before both June 21, 2004 and June 27, 2004.
- 3. Claim 109 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent for "said piston pump device" in claim 109, line 1. It appears claim 109 should be cancelled.

- 4. Claims 68-83, 86, 106, 108 and 110-111 are allowed.
- 5. Applicant's arguments to the extent they apply to claim 109 have been considered but are moot in view of the new ground(s) of rejection.
- 6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
